5 Troubleshooting

App won't connect or load

Make sure you're connected to WiFi or cellular data. Close Expo Go completely and reopen it, then try the URL again.

Tunnel URL not working

The tunnel URL may change periodically. Contact support for the current URL if the one provided doesn't work.

Can't log in to dashboard

Verify your email and password are correct. Try clearing your browser cache or using incognito/private mode.

Features not working

Ensure you have the correct role permissions. Contact your administrator if you need elevated access.
